

Directors Sterne and Durkin Recognized Again in *IAM Strategy 300: The World's Leading IP Strategists*

Washington D.C. (August 20, 2020) – Sterne, Kessler, Goldstein & Fox is proud to announce that Directors [Robert Greene Sterne](#) and [Tracy-Gene G. Durkin](#) have been named to the prestigious [IAM Strategy 300: The World's Leading IP Strategists](#) rankings, published by *Intellectual Asset Management* (IAM) magazine. IAM notes that these attorneys “lead the way in the development and implementation of world-class IP value creation programmes.”

Sterne has consistently earned this distinction, and this is the second consecutive year for Durkin's inclusion. Earlier this year, Sterne and Durkin were among the 15 Sterne Kessler directors recognized in the [IAM Patent 1000: The World's Leading Patent Professionals](#), which names the top patent practitioners and firms in key jurisdictions around the world. The *IAM Patent 1000* editors lauded Sterne as a “patent prophet” and Durkin as a “designs authority.”

Inclusion in the *IAM Strategy 300* is based on nominations from multiple professionals and experts in the intellectual property arena, as well as extensive research and vetting processes by IAM. The editors explain that honorees “have exceptional skill sets, as well as profound insights into the development, creation and management of IP value.” Read more about the methodology [here](#).
