

Sterne Kessler Helps Secure Denial of Two IPRs for Patent Owner Polaris PowerLED

Sterne, Kessler, Goldstein & Fox successfully secured denial of two *inter partes* review petitions at the PTAB on behalf of patent owner Polaris PowerLED Technologies. The subject patents relate to adjusting current provided between electronic devices based on sensed temperature and controlling the luminosity of strings of LEDs for electronic displays. Read each institution denial decision [here](#) and [here](#).

The Sterne Kessler team representing Polaris PowerLED Technologies included: Directors Jason A. Fitzsimmons, Richard M. Bemben, and Michael D. Specht. The cases are IPR2023-00479 & IPR2023-00484, *Samsung Electronics Co., Ltd. v. Polaris PowerLED Technologies, LLC*.
